

## 210 Classic

There's nothing like spending a full day with your family exploring new shores, enjoying the fresh air and sparkling waters. The 210 lets you take full advantage of your time onboard with the option to overnight. A powerful 5.0L MerCruiser® sterndrive will carry you as fast and far as your heart desires. With the spaciousness of typical 23' models, the 20' Bayliner 210 Classic is surprisingly big fun.

- Large, secured cabin area with a comfortable oversized berth and tremendous storage capacity.
- Performance Matched Hull System and standard 5.0L MerCruiser® Alpha I sterndrive provides plenty of power topping out over 48 MPH.
- Deep hull with low profile cabin-top improves visibility, access to foredeck and adds extra weather protection.
- Perfect for fishing – featuring flat side decks for mounting fishing tackle, plenty of helm space for electronics and great transom access.
- Ski tow ring, swim platform, aft-facing seating and oversize ski locker accommodates water sports.

# Bayliner 210
